

## Environmental and Water Systems Track within Civil Engineering Course Recommendations

Breadth Electives:	Tech Electives List: (Choose 6)
<p><b><i>Recommended Breadth Electives:</i></b>                      CEE 4200 Hydraulic Engineering                      CEE 4300 Environmental Engineering Systems                      CEE 4405 Geotechnical Engineering</p> <p><b><i>Choose 1 of 3 from the following list:</i></b>                      CEE 3055 Structural Analysis                      CEE 4100 Construction Management                      CEE 4600 Transport Engineering</p>	CEE 4210 Hydrology CEE 4225 Coastal Engineering CEE 4310 Water Quality CEE 4320 Hazard Substance Engineering CEE 4330 Air Pollution CEE 4395 Environmental Systems Design CEE 4430 Environmental Geotechnics CEE 4620 Environmental Impact Assess CEE 4699 Undergrad Research CEE 6XXX Graduate Courses

Note: Tracks are optional, not required. Choosing a track allows you to concentrate your elective courses within one area of civil engineering, in order to further specialize within your chosen field of study.
