

Bill Higginbotham, CE 76

President and CEO of ET Environmental Corporation

Bill Higginbotham is President and CEO of ET Environmental Corporation. Higginbotham has more than 38 years of engineering, environmental, energy management and construction experience, and has been with ET since its inception in 1993. He is responsible for developing and expanding the company's core markets including alternative fueling infrastructure for the transportation and solid waste industries.

Higginbotham has consulted and directed large commercial construction projects, energy and environmental related projects, and construction and demolition of industrial facilities. He has also served as an arbitrator and expert witness, and as lead technical negotiator for citizen negotiations in the public sector.

Among his professional achievements, Higginbotham is a Registered Professional Engineer, LEED Accredited Professional and Licensed General Contractor. He is a member of the American Society of Civil Engineers, the Solid Waste Association of North America and the National Solid Waste Management Association.

Higginbotham is an active Georgia Tech alumnus who has given back to his alma mater in many ways over the years. He recently served as chair of the School of Civil and Environmental Engineering's External Advisory Board and endowed a new professorship for the School. He and his wife Elizabeth live in the Atlanta area.
