

WILLIAM R. CALHOUN JR.

Vice Chairman & Executive Vice President

Clark Construction Group

As Vice Chairman & Executive Vice President of Clark Construction, William (Bill) Calhoun is responsible for driving Clark Construction Group's strategic direction, including the acquisition of new work and identifying new and emerging markets.

Bill began his career with Clark in 1983, and since then has provided leadership on a number of award-winning projects, including National Geospatial-Intelligence Agency New Campus East, Brooke Army Medical Center, Verizon Center (now Capital One Arena), and the National Institute of Standards and Technology Advanced Measurement Laboratory.

Bill serves on the Board of Visitors for the A. James Clark School of Engineering at the University of Maryland and is a member of the Corporate Advisory Board of So Others Might Eat. He is a National Peer in both GSA's and VA's Construction Excellence Peer Review Program and has served on the Board of Directors for the Construction Industry Roundtable.

Bill holds a Bachelor's degree in Civil Engineering from the Georgia Institute of Technology and completed the Advanced Management Program at Harvard Business School. He's a member of the Georgia Tech College of Engineering Advisory Board and the School's Construction Advisory Board.

He has also been inducted into Georgia Tech's Academy of Distinguished Engineering Alumni and into the National Academy of Construction.
